ProLume®

High Efficiency Electronic Ballasts

April 2010

ProFormance®

High Performance T8 Systems

Available in Standard and Low Ballast Factor

ProLume® High Performance multivolt ballasts allow for more efficient operation compared to standard electronic ballasts. When paired with a ProLume, high-lumen lamp, ProLume High Performance ballasts provide more light output at a lower input wattage and produces greater than 90 mean lumens per-watt. These high performance ballasts are designed with a micro-can housing that's 16% smaller than standard electronic ballasts. ProLume lamp and ballast systems are CEE qualified and can reduce lighting costs and energy consumption by as much as 20%. The ballasts are backed with a 5-year warranty.
